A Clinical Hypnosis Primer: Expanded And Updated

Synopsis

Expanded and updated to include recent trends and newer applications, this classic work is the definitive introduction to the many uses of hypnosis in medicine, psychology, and dentistry. Designed to help health care professionals safely and confidently use hypnosis with their patients, this book provides valuable background information as well as practical instruction on hypnotic techniques. Offers a wide variety of proven induction techniques and includes easy-to-follow instructions for such proven approaches as the movie method, clenched fist induction, the coin technique, the confusion technique, and many others. Also contains practical information on what to look for in a patient's words and actions to verify that a trance has been induced.

Customer Reviews

Excellent compendium of hypnotic technique, encyclopedic collection of therapeutic tricks of the hypnotherapist's trade. If you buy no other hypnotist's handbook, buy this one. It is a library in itself.
